

County Level Data Online

2005 DASIE Series  Data for Assessment, Surveillance, Indicators, and Evaluation

Overview

The current trend in data publishing is to place information on the Internet first and provide a limited number of paper copies upon request. Web publishing has dramatically reduced the cost of providing information, increased timely access to information, and increased the amount of data available to the public. This publication was developed to help direct you to reliable sources of county level data available via the Internet.

Accessing Data Online

Accessing data from the Internet often requires that you be able to view (download) files from a website, which means that you may need the following types of software on your computer: Adobe Acrobat Reader for PDF files, Microsoft Word, or Microsoft Excel. Adobe Acrobat is the most commonly used software for files on the internet and is available free online at <http://www.adobe.com/products/acrobat/readstep2.html>

Internet sites move or delete web pages, data and reports periodically. If a link listed on this sheet does not work or if you have problems accessing the data online, please contact Mary Ann O'Garro at 360-786-5581 ext. 17038# or by email at ogarrom@co.thurston.wa.us

About this Publication

If you have questions or comments about the data sources listed in this publication, please contact Mary Ann O'Garro at the Thurston County Public Health & Social Services Department 360-786-5581 ext. 17038# or ogarrom@co.thurston.wa.us

Additional copies of this publication can be provided upon request in print or by email and by visiting the Department website www.co.thurston.wa.us/health/dahm/documents/onlinedatasources.pdf
