FEATURING …

The Ooey Gooey® Lady
Lisa Murphy
Early Childhood Specialist
Founder and CEO of Ooey Gooey, Inc®

Lisa Murphy has been involved with early childhood education for over 20 years; teaching and working with children in various environments including Head Start, kindergarten, private preschools, family childcare, park and rec centers, group homes and many child care centers.

Lisa is the founder and CEO of Ooey Gooey, Inc. where her mission is to assist in the transformation of the industry of early childhood education by offering: 1) the best workshops and trainings; 2) the most up to date materials and resources; and 3) insightful conversations and connections through the power of social media. Lisa presents hundreds of workshops each year to both domestic and international audiences on various topics related to early childhood education.

Lisa has an M.Ed. in early childhood education from Champlain College in Vermont. She has authored four books, produced dozens of teachers training DVD’s and is a popular keynote speaker at educational conferences. Lisa’s standing room only seminars have become nationally known for their information, humor, inspiration and energetic delivery. Frequently asked if she has ever been a stand up comic, Lisa practices what she preaches by blending the learning with the laughing.

Lisa collaborates with Jeff Johnson from Explorations Early Learning on various projects related to early childhood education, including hosting an annual UNConference and producing THE CHILD CARE BAR AND GRILL podcast – which releases two episodes a week to listeners around the globe. Lisa has become known for her ability to link hands-on activities to educational standards, her outspoken advocacy, and her commitment to creating child-centered, play-based early childhood environments. Her understanding of the importance of play is obvious in her personal and professional life.

WHAT IF TODAY WAS THEIR ONLY DAY?
In this motivational presentation, Lisa shares the powerful story of her first day of school. Through active and engaging storytelling Lisa brings you back to her first day, taking you on a grand tour of Miss Mary’s Nursery School. And, in the style she has become famous for, she shares many observations, lessons and anecdotes about how early childhood has changed along the way. Lisa will share the sights sounds and smells of the place where, at the young age of three, she decided to become a teacher and identifies the how, and why, that one day solidified her decision to become an educator. This inspiring keynote gets participants back in touch with their personal how and why. It gets them excited and gets them thinking: If it WAS their only day, what will they remember?

FIZZLE BUBBLE POP AND WOW!
Simple Science for Young Children!

Often our own experience has led us to think that science is hard, difficult and complicated. This workshop will reassure you that you do not need a degree in biology or chemistry to have an engaging science program in your classroom as Lisa demonstrates 6 tables of age-appropriate science activities for young children. Participants will be invited to come up on stage and play with the experiences at the end of the demonstration.

THE IMPORTANCE OF EARLY EXPERIENCES:
How playing IS Kindergarten readiness!

During this session, Lisa will identify the seven things we need to do with children each day. These seven things make up the foundation that supports the house of higher learning. There is nothing wrong with the “academic” expectations within this house: reading, writing, math... the trouble is that many early childhood educators are being pressured to build a house where there is no foundation. And you do not need to be an architect to know that if you build where there is no foundation, the house will come crashing down! Playing is “getting them ready” and through an investigation of each of the “seven things,” Lisa shows you how. This session has become one of Lisa Murphy’s most popular and oft requested workshops. By making time to create, move, sing, discuss, observe, read and play we are getting children ready not just for kindergarten, but for life!
